WALL PROFILES & LED WALL PROFILES

MDF - Matt & Super Matt

Wall profiles can be used in kitchens, bathrooms, bedrooms, living rooms, hotel and office interiors. They come in matte, supermatte or glossy designs.

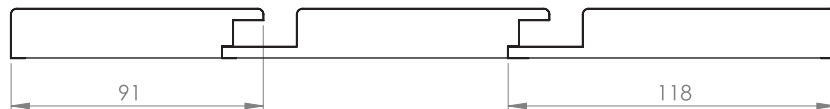

Furthermore, infinite color options are presented by covering paintable foil on the surface of the profiles.

After MDF plates are cut in desired dimensions, they are shaped by the worlds most modern machines at Gizir Facilities. Then they are covered with foils with adequate widths to produce unique Gizir Wall Profiles.

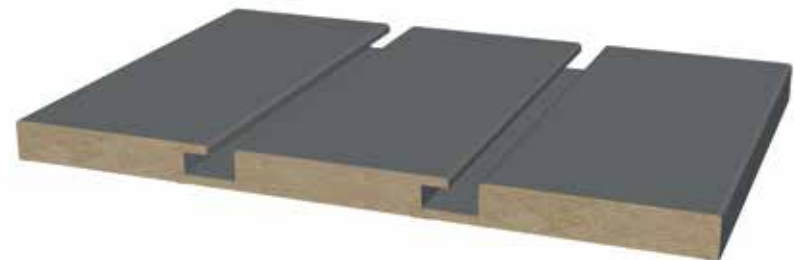

***LED strips can be ordered seperately**
